

IGNACIO MOLINA

Escazú, SJ 
62803727 
nmolinaa08@hotmail.com 

OBJECTIVE

I am looking to strengthen my soft skills, gain experience in different areas and continue improving my language skills in order to have a high value in the job market. I am also interested in being involved in essential IT.

EDUCATION

High School | Liceo de Escazú
Cisco CCNAv7 Networking Introduction | Cenfotec
Scrum Fundamentals | ScrumStudy

SKILLS

- Easily to communication
- Good listener
- Proactivity
- Self-starter
- Good teamwork
- Empathic

ACTIVITIES

All my life I have been a person interested in technology, I have always played video games and recently I have learned IT essentials. I collect gems and fossils as a hobby with my father. I have an interest in gastronomy and have always been interested in everything from coffee and tea to gourmet foods. I have also always loved gardening for that reason I took a hydroponics course at UCR. I have always been interested in languages, so I have learned English and French. In 2017 I collaborated with the cooperative Sulá batsú in the event called international colloquium of mobile technologies development and innovation cooperating with French and English speakers. I feel to be a very grateful person respectful as well as considerate of other people's feelings, so I always try to be empathetic and when possible, to help others.
